Love and technology have tied the proverbial knot, for better and for worse. Human interaction has gone hi-tech—it's now both more immediate and global. Does courtship even still exist in the world of instant-everything? Can a real connection ever be made from afar? Robot Hearts is a collection of true stories from writers navigating the relationship maze of new media. Strange, diverse, heartbreakingly hilarious—each story, at its core, is 100 percent human.
