In her first year, she picked up words, smiled and laughed, and learned to walk. But then Anne-Marie began to turn inward. And when her little girl lost some of the words she had acquired, cried inconsolably, and showed no interest in anyone around her, Catherine Maurice took her to doctors who gave her a devastating diagnosis: autism. In their desperate struggle to save their daughter, the Maurices plunged into a medical nightmare of false hopes, miracle cures, and infuriating suggestions that Anne-Maries autism was somehow their fault.
