One who wants to get joy of book reading especially in very less time can go for it. About The Book The Critique of Practical Reason Kants Critique of Practical Reason (Kritik der praktischen Vernunft), published in 1788, is one of the most striking disquisitions in the whole range of German metaphysical literature. One of its paragraphs has alone sufficed to render it famous. The passage concerning the starry heavens and the moral law as the two transcendently overwhelming phenomena of the universe is, perhaps, more frequently quoted than any other written by a German author. This is the treatise which forms the central focus of Kants thinking. It stands midway between the Critique of Pure Reason and the Critique of Judgment. Herein Kant takes up the position of a vindicator of the truth of Christianity, approaching his proof of its validity and authority by first establishing positive affirmations of the immortality of the soul and the existence of God. It also includes a theory of happiness, and an argument concerning the summum bonum of life, the special aim being to demonstrate that man should not simply seek to be happy, but should, by absolute obedience to the moral law, seek to become worthy of that happiness which God can bestow.
