Reviews

This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Up to now, much leadership development within organizations has been through the use of competency models. You've probably experienced this. It will have been decided what behaviours your organization wants to see in its leaders - if they are to be effective. Like the NHS 16 Qualities. One that you own and that therefore you are far more involved in. It ceases to be something that's done to you - it becomes something you do. Our approach is to engage you in setting the agenda yourself. You become the expert. And you see where you need to act - and how. With the 18 Challenges: * You create an agenda for your development that is both simple and that you own. * You get...
